SECTION 1: IDENTIFICATION: PRODUCT IDENTIFIER AND CHEMICAL IDENTITY

Product Identifier: TAKEIN II ORGANOSILICONE SURFACTANT/ PENETRANT

Active Constituent: 1020 g/L POLYETHER MODIFIED POLYSILOXANE

Other means of Identification:
- ORGANOSILICONE SURFACTANT/PENETRANT
- Grow Choice product code number: 735 5
- AVPMA registered number: 61208

Recommended use of the chemical and restrictions on due use:
A non-ionic wetter / spreader / penetrant for use with agricultural pesticides.

Suppliers name, address and phone number:
Grow Choice Pty Ltd
113 Fitzroy Street | TAMWORTH NSW 2340
Phone: 02 6766 3979 | 1800 817 676
Fax: 02 6766 2922 | Email: admin@growchoice.com.au

Emergency phone number:
In Case Of Emergency Dial 000

Poisons Information Centre:
Phone: 13 11 26 and speak to a Poisons Information Specialist. Fax: +61 2 9845 3597 http://www.chw.edu.au/poisons/contact.htm

SECTION 2: HAZARDS IDENTIFICATION (continued on page 2)

Classification as HAZARDOUS in accordance with the Approved Criteria for Classifying Hazardous Substances [NOHSC: 1008(2004)] 3rd Edition and the Globally Harmonized System of Classification and Labelling of Chemicals (the GHS).

Considered DANGEROUS for transport by sea and air in accordance with the IMDG Code 37-14 (refer Section 14).

Classification of hazardous chemical:
- Acute toxicity (Inhalation): Category 4
- Eye irritation: Category 2
- Chronic aquatic toxicity: Category 2
- Acute toxicity (Dermal): Category 4

Signal Word: DANGER

GHS Symbols:
- Exclamation Mark
- Environment

General Precautionary Statements:
If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.

Hazard Statements:
- H319: Causes serious eye irritation
- H332: Harmful if inhaled.
- H312: Harmful in contact with skin
H411 Toxic to aquatic life with long lasting effects

Precautionary Statements

Prevention

P261 Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.
P264 Wash hands, arms, face, neck and any exposed skin thoroughly after handling.
P271 Use only outdoors or in a well-ventilated area
P273 Avoid release to the environment.
P280 Wear protective gloves/ eye protection/ face protection

Response

P304 + P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 If eye irritation persists: Get medical advice/attention
P302 + P352 IF ON SKIN: Wash with plenty of water/soap
P312 Call a POISON CENTER or doctor/physician if you feel unwell.
P363 Wash contaminated clothing before reuse.
P391 Collect spillage.

Storage

P405 Store locked up

Disposal

P501 Dispose of contents and container in accordance with local, regional and national regulations.

SECTION 3: COMPOSITION AND INFORMATION ON INGREDIENTS

Chemical ingredients: CAS number and other unique identifiers: Concentration of ingredients:

SECTION 4: FIRST AID MEASURES

In Case Of Emergency Dial 000 and/or Poisons Information Centre: Phone: 13 11 26 and speak to a Poisons Information Specialist. Take this SDS and or DFU/Label with you or when calling the Poisons Information Centre.

Description of necessary first aid measures

Swallow: Rinse mouth thoroughly with water. Seek medical advice/attention. Do not induce vomiting unless under the direction of medical personnel.

Eye: If product gets in eyes, wash it out immediately with water for at least 15 minutes. Do not rub eye. Seek medical attention.

Skin: Remove contaminated clothing and wash affected areas thoroughly with soap and water.

Inhaled: Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention. Place unconscious person on their side in the recovery position and ensure breathing can take place.

Symptoms caused by exposure

Inhalation: A single exposure may cause the following adverse effects: Headache, Exhaustion and weakness.

Skin Contact: May cause discomfort and/or irritation.

Eye Contact: May cause irritation.

Ingestion: No specific symptoms known
SECTION 5: FIRE FIGHTING MEASURES

Suitable extinguishing media

The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire. Do not use water jet as an extinguisher.

Specific hazards arising from the chemical

Hazardous combustion products include oxides of carbon and nitrogen, hydrogen chloride and phosgene. Non-combustible.

Special protective equipment and precautions for fire fighters

Fire fighters should wear full protective gear, including self-contained breathing apparatus (AS/NZS 1715/1716). Keep unnecessary people away. If it can be done safely, remove intact containers from the fire. Otherwise, use water spray to cool them. Bund area with sand or earth to prevent contamination of drains or waterways. Dispose of fire control water or other extinguishing agent and spillage safely later.

Hazchem Code

2Z.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

In case of spillage it is important to take all steps necessary to:

- Avoid contact with the spilled material or contaminated surfaces.
- Extinguish or remove any sources of ignition.
- When dealing with spills do not eat, drink or smoke and wear protective clothing and equipment.
- Keep people and animals away.
- Prevent spilled material from entering drains or watercourses.

Environmental precautions

Do not allow to get into surface water, drains and ground water. If the product contaminates rivers and lakes or drains inform respective authorities.

Reposition any leaking containers so as to minimise leakage. Dam and absorb spill with an absorbent material (e.g., sand or soil). Shovel the absorbed spill into drums.

Methods and materials for containment and cleaning up

Contain spill and absorb with earth, sand, clay, or other absorbent material. Collect and store in properly labelled, sealed drums for safe disposal. Deal with all spillages immediately. Clean contaminated floors and objects thoroughly, observing environmental regulations. If contamination of drains, streams, watercourses, etc. is unavoidable, warn the local water authority.

6.4 Reference to other sections

Information regarding safe handling see section 7.
Information regarding personal protective equipment see section 8.
Information regarding waste disposal, see section 13.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling

Safe work practices are recommended. Avoid contact with eyes and skin.

When opening the container and preparing spray wear appropriate PPE (refer Section 8).

Do not spray under high wind conditions.

Hygiene measures:

When using products, do not eat, drink or smoke.

Contaminated work clothing should not be allowed out of the workplace.

Wash hands thoroughly with soap and water after use and before eating, drinking, smoking/using tobacco, chewing gum, using the toilet or applying cosmetics.

After each day's use, wash gloves, face shield or goggles and contaminated clothing.

Avoid contact with eyes and skin.

Keep out of reach of children, unauthorised persons and animals.

Store in tightly sealed original containers in a dry secure place away from fertilizers, feed and food.

Store out of direct sunlight and extreme temperature.

Always read the label and any attached leaflet before use.
SECTION 8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

Appropriate engineering controls
No value assigned for this specific material by Safe Work Australia. No special requirements. Product is used outdoors.
Control process conditions to avoid contact. Use only in well-ventilated areas. If necessary, use local exhaust ventilation to keep airborne concentration below the exposure limits.

Personal protective equipment (PPE):
When opening the container, preparing the spray wear cotton overalls buttoned to the neck and wrist and a washable hat, elbow length PVC chemical resistant and face shield or goggles.

When using the prepared spray, wear cotton overalls buttoned to the neck and wrist and a washable hat and optional once chemical is prepared for use, elbow length PVC chemical resistant and face shield or goggles if protected from spray drift/contamination.

Face and Eye Protection: Face shield or goggles.
Clothing: Cotton overalls buttoned to the neck and wrist (or equivalent clothing) and a washable hat.
Gloves: Elbow-length chemical resistant PVC gloves.
Respiratory: If airborne concentrations are likely to exceed the exposure standards above or if exposed to dust, an AS/NZS 1715/1716 approved respirator should be worn.

Recommended to use Australian and New Zealand Standard PPE:
- Overalls: AS 3765, Clothing for protection against Hazardous chemicals
- Gloves: AS/NZS 2161, Industrial safety gloves and mittens (not electrical and medical gloves)
- Goggles and face shield: AS/NZS 1337, Eye protectors for industrial applications.
- Footwear: AS/NZS 2210, Occupational protective footwear
- Respirators: AS NZS 1715 Selection, Use and Maintenance of Respiratory Protective Devices
- Footwear: AS/NZS 2210, Occupational protective footwear

Requirements Concerning Training
Check State and/or Territory regulations that require people who use pesticides in their job or business to have adequate training in the application of the materials.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Liquid
Colour: Pale yellow
Odour: Characteristic
pH (diluted solution): 6 - 8 in 4% solution
Flash point: 102°C DIN 51758
Relative density: 1.01 @ 25°C
Solubility(ies): Soluble in water
Viscosity: 40 - 90 mPa s @ 25°C

SECTION 10: STABILITY AND REACTIVITY

Chemical Stability: Stable under normal conditions.
Possibility of hazardous reactions: No hazardous reactions known.
Hazardous Polymerization: Hazardous polymerisation is not possible.
### SECTION 11: TOXICOLOGICAL INFORMATION

#### Toxicity: Information on toxicological effects

##### Acute toxicity - oral

Notes (oral LD$_{50}$) LD$_{50}$ = 3,200 mg/kg, Rat  
Notes (dermal LD$_{50}$) LD$_{50}$ = 1,550 mg/kg, Rabbit  
Notes (inhalation LC$_{50}$) LC$_{50}$ = 1.08 mg/l, Rat, (4 h)

#### Persistence and Degradability

No information available.

#### Bio accumulative Potential

Not readily biodegradable.

#### Mobility in Soil

No information available

#### Other adverse effects

Use best management practices to limit uncontrolled release to waterways.  
Do not contaminate dams, waterways or sewers with this product or the
SECTION 13: DISPOSAL CONSIDERATIONS

Disposal of product
On site disposal of the concentrated product is not acceptable. Ideally, the product should be used for its intended purpose. If there is a need to dispose of the product, approach local authorities who hold periodic collections of unwanted chemicals (ChemClear®).

Disposal of Container
Do not use this container for any other purpose. Triple rinse containers; add rinsate to the spray tank, then offer the container for recycling/reconditioning, or puncture top, sides and bottom and dispose of in landfill in accordance with local regulations. drumMUSTER is the national program for the collection and recycling of empty, cleaned, non-returnable crop production and on-farm animal health chemical containers. If the label on your container carries the drumMUSTER symbol, triple rinse the container, ring your local Council, and offer the container for collection in the program. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, puncture or shred and bury containers in local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SECTION 14: TRANSPORT INFORMATION

General Transport Information
It is considered good practice not to transport agricultural chemical products with food, food related materials and animal feed products.

Land
Considered non-dangerous for road and rail transport by the Australian Code for the Transport of Dangerous Goods Road and Rail (August 2014 edition)

Sea and Air
Considered DANGEROUS for transport by sea and air in accordance with the IMDG Code 37-14.

Air transport
UN number: UN 3082
UN proper shipping name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Polyethersiloxane)
Transport hazard class(es): 9
Packing group: III
Environmental hazards : Yes
Special precautions for user: No

Sea transport IMDG-Code
